

POUNDBURY FERTILITY

at King Edward VII's Hospital
in association with The Lister Fertility Clinic

**Poundbury Fertility at King Edward VII Hospital
in association with the College of Medicine**

Integrated Fertility

A series of three educational evenings for health care professionals

These evenings are open to **all health professionals** who have an interest in **reproductive medicine** (doctors, nurses, complementary practitioners). The aim is to provide a comprehensive course, with time for discussion, leading to a solid understanding of integrated infertility care run over three evening sessions between **18:30 and 20:30**. By the end of course, you will have covered the following topics.

12 November 2014

- Basic understanding of the menstrual cycle and semen production – why things can go wrong
- Natural conception – why does natural conception not occur
- The problem of infertility
- Diagnosis of problems of infertility

19 November 2014

- The patients perspective
- How to improve natural fertility and self help
- The role of counselling
- The role of complementary medicine in infertility care
- Treatment of infertility, to include lifestyle / surgery / assisted conception
- HFEA and legal issues

26 November 2014

- Understanding different regimes for assisted conception
- Adjuvant treatment for infertility, including steroids, IVig, intralipids
- Egg donation
- Embryology – what goes on in the lab
- What does the future hold
- Egg freezing

Please note the timings of the above programme may change
